## Fairbank—Morse Engine and Electric Light Plant

Your engine does the work. You have the lights you want. Electric fans keep you cool and chase flies away. You can run the wash machine with an electric motor. You can iron without standing over a hot stove, by using an electric flat iron. You can clean house with a vacuum cleaner. Your engine will pump water too and do any kind of work requiring power. It gives you 24 hours service without the necessity of starting up the engine every time lights are wanted. We will be pleased to have you call on us so we can explain the economy and durability of this wonderful lighting system.
